Professional Summary

Computer Science and Business Systems undergraduate with hands-on experience in AI, cloud computing, and data analytics. Passionate about building scalable, user-centric applications and leveraging modern technologies to solve real-world problems.

Education

Dayananda Sagar College of Engineering

B.E. | Computer Science and Business Systems | GPA: 7.8

Bengaluru, Karnataka

2022-2026

Jnanasudha PU College

PU | PCMC | Percentage: 94.67%

Karkala, Karnataka

2020-2022

Don Bosco High School

Class X | 83.36%

Sirsi, Karnataka

2017-2020

Skills

Programming & Concepts: Python, SQL, C, Power BI, OOPS, Gen AI, Prompt Engineering, JavaScript, API

Version Control: Git, GitHub

Soft Skills: Leadership, Teamwork, Time Management, Presentation, Adaptable Communication.

Experience

Edutainer | Business Management & Analytics Intern

Feb 2026 – May 2026

- Analyzed business datasets, created Excel/Power BI dashboards, and applied business analytics techniques to support reporting and data-driven decision-making.

Future Interns | Data Science & Analytics Intern

Oct 2025 – Nov 2025

- Built interactive Power BI dashboards for e-commerce sales and Facebook ad campaign analysis, transforming raw data into actionable business insights.

Projects

Echo – AI-Powered Customer Support Platform

Dec 2025 – May 2026

- Developed a real-time customer support platform with AI chatbot and AI voice assistant features. Implemented RAG-based knowledge retrieval, embeddings for FAQ search, human handoff, and conversation management dashboards. Integrated multi model AI support (OpenAI), VAPI for voice automation, Clerk for authentication and subscription billing, and AWS Secrets Manager for secure key storage. Tech: TypeScript • JavaScript • Next.js 15 • React 19 • Convex • Tailwind • Turborepo • AWS

AI Study Assistant

Jan 2025 – May 2025

- Designed an AI-powered platform that generates personalized study plans, recommends learning resources, and tracks student progress. Integrated APIs for NLP and recommendation, leading to a 30% improvement in study schedule adherence during pilot testing. Tech: TypeScript • JavaScript • Hugging Face API • Tavily API • Grok API

Stock Trend Prediction

Jul 2024 – Oct 2024

- Developed an ML model using LSTM to analyse historical stock market data, achieving ~80% prediction accuracy on test datasets, enabling better data-driven investment decisions. Tech: Python • Pandas • NumPy • Scikit-learn • LSTM

Positions And Responsibility

Media Head – Udbhava Club, DSCE

2024–Present

- Led media and publicity initiatives, enhancing event visibility and engagement.
- Organized Phoenix 2024 & Phoenix 2.0 for 300+ participants.

Certifications and Trainings

- Business Management and Analytics – Edutainer (May 2026)
- Data Science and Analytics – Future Interns (October 2025)
- Data Analytics Job Simulation – Deloitte (Sep 2025)
- Business Intelligence & Analytics – NPTEL (Apr 2025)
- Generative AI Certification – Simplilearn (May 2025)
- Microsoft Power BI – Infosys Springboard (Jan 2023)
